TO ALL MEMBERS

As a shooting club we and our members are subject not only to Home Office regulation, but also to County/District Police Authority rules, regulations and inspections, quite apart from our own internal club constitution and rules.

Neither the Home Office nor the Police are prepared to permit individuals to own firearms, but not to use them. Put simply, shooters are expected to shoot reasonably regularly, and local Police Authorities tend to interpret this as “ X “ times per year per firearm, in the case of Thames Valley Police, our local Police Authority, 4/5 times per year for each firearm that you own.

If you fall below this designated usage, you may well run the risk of losing your FAC and your firearms.

As a shooting club we are conscious that we should adopt a shooting policy which encourages our members to shoot sufficiently regularly to avoid these pitfalls, and after much discussion in committee, we have decided to suggest a target for members of 10 club shooting attendances per year, which we hope should satisfy the Authorities of our members due compliance.

Good shooting.

The Management Committee.
